Gateway to Space grades are based on a 100-point scale (1 point = 1% of total grade) and there is no curve. 50% of the points are based on individual contributions and 50% are based on team contributions. Grades will be posted to the website 5 to 7 times throughout the semester. A password will be given to each student to look up their grades on the website. You graded is earned not deserved. Points are divided as follows:
