### **Office Hours**

Tues 2:00-3:30 and by appt

### **Course Objectives and Structure**

The primary objective of this seminar is to provide a framework that will lead to the successful completion and defense of your honors thesis. Therefore, the majority of the class time will be spent directly on this objective. You will peer-edit portions of your written thesis with your classmates and perform practice presentations of portions of your thesis presentation. Because a primary goal of our seminar is to provide a setting in which students give and receive feedback on their research and their written and verbal presentations of that research, *attendance and active attention is mandatory!*

### **Grades**

Your grade will largely be determined based on your honors thesis and defense but can be adjusted based on the quality of your class participation and post-defense assignments. Economics 4339 does not count towards economics major credit hours but only as elective hours toward the total A&S hours required for graduation.

### **Course Schedule**

Jan 16: Econometrics review #1, Lit review mini-lecture
