 ISBN-13: 978-0073375953 McGraw Hill Irwin Publishers I would suggest looking for used/new
 copies online before buying at the bookstore to compare prices. Also, the best strategy for doing well in
 class and understanding the material is to read the corresponding textbook chapters befo

differ in emphasis.

Examinations: The exams will take place during regular class time in the regular class room on the dates listed below. Exam dates are tentative. They will be a combination of multiple choice questions and short answer questions. *(no cell phone calculators or any calculators capable of storing information i.e. graphing calculators)*. Exam questions will be based on material covered in lecture and the homework. You must show all work on Exams!

Make-ups for any exam are allowed only under compelling circumstances. Under such a compelling circumstance, you are almost always required to make prior arrangements before the exam. Typically a makeup exam will be administered prior to the actual exam date and never more than 2 days past the exam date. Any makeup exam given after the exams have been returned will be an oral exam.

Quizzes: Quizzes will take place in class on class dates.

Homework: Homework will be assigned at the end of chapter/sections. Homework will be graded on a 10 point scale.
