INSTRUCTOR BIO

I am an economics instructor with more than 20 years of experience. My research interests are in the fields of environmental economics and more recently in how to teach economics. I have been involved in projects related to air quality, climate change, and energy. (6.3-7.1) 45.909 (all b.nnt.909 (0) (ela)-1.:k) J23 0//86 all b.n

Your access MindTap high course, Canvas and is:
https://engage.com/courses/UC_MindTap

Canvas : <https://canvas.luc.edu/> (Canvas) and any other additional readings will be found in Canvas. Please check Canvas frequently for any email notifications or changes that may occur throughout the course.

R is a free programming language that is available for Mac, Windows and Unix operating systems. It is installed on most personal computers and can be downloaded from the Internet. You will use the R Studio Interface for R exercises. We will provide some of the class materials in the form of R help files. R has self-contained documentation in the form of R install files.

On the R exercises, we will get the basic training on how to install and do some basic plots in R. I will help you through the semester. An additional fee is the book Modern R by John Fox and John Fox, published by Boca Raton, FL: CRC Press, 2015. The book is available for purchase at <https://www.crcpress.com/Books-and-Ebooks/John-Fox/Modern-R/book>.

EVALUATION AND GRADING

TUTORING

The Economics Department offers drop-in office hours assistance in all courses. The major and casual in the undergraduate courses. The Department website is <http://www.cledu.edu/economics/index/513/attachment>.

The Economics Department maintains a list of available software for the Mac. The website is <http://www.cledu.edu/economics/index/515/attachment>.

TECHNOLOGY SUPPORT

CU Builders Canvas

Here is the list of recommended system elements [Canvas Computer Specifications Page](#)

Here is the detailed list of network issues in Windows, MacOS, iOS and Android: [Spd Bios Page](#)

NETIQUETTE

All users should be aware that their behavior impacts others, even online. Help to make all online environments and web-based tools and services better places to use. Remember the net is a public place and your behavior should reflect that.

1. Always think before you post. Inappropriate comments, threats, or harassment can be misinterpreted. So please think twice before you post.
2. Keep it relevant. There are places for chat and social networking. Don't post in the discussion areas unless you are asked to.
3. Never use all caps. This is equivalent to yelling in the online world. It is not a good idea. Only use capital letters when appropriate.
4. Make sure you are using the correct email address. If you are having trouble, contact your instructor or the help desk. Remember, it is not your fault if you have a problem. If you are having trouble, contact your instructor or the help desk. Remember, it is not your fault if you have a problem.
5. Treat people the same as you would face-to-face (or kinder). It might be easier to hide behind the computer screen, but people can tell when you are being rude. Remember, there is a person behind the name on the screen. Treat them with the same respect and courtesy that you would expect in a face-to-face interaction.

behaviors and community. The Office of Internal Equity and Compliance (OIEC) addresses concerns and individuals who believe they have been subjected to misconduct can contact OIEC at 303-492-2127, email ce@colorado.edu, or visit our website www.colorado.edu/oiec, and policies can be found in the [OIEC website](#).

Please know that you and your graduate institution have a responsibility to inform OIEC when they are made aware of any violations of these policies regardless of when they occurred. We understand that individuals impacted receive information about their rights, processes and policies. To learn more about reporting and disciplinary processes visit [http://www.colorado.edu/oiec](#).

RELIGIOUS HOLIDAYS

Campuses regarding eligibility concerns should make every effort to deal equitably and fairly with all students because of eligibility in shared conflict. We understand that students may have religious observances that conflict with the flexibility of timing of completion of assignments. In this situation, the instructor should be notified in advance if you anticipate a religious holiday may impact completion of class. Some information on the eligible holidays commonly used by CU Boulder students is in the [online interfaith calendar](#).

COURSE WITHDRAWAL POLICY

Any student wishing to withdraw from the course should contact the instructor. For complete information, please visit their website at <http://ce.colorado.edu/ce/withdrawal-and-deadlines-general-info/> or visit [Continuing](#).

ADDITIONAL SUPPORT SERVICES

A variety of internal services such as writing center guidance, personal counseling, and library services are available to the students. For more information about these services, visit the [University of Colorado](#) website.
