INTRODUCTION

There cannot be a better time to take this course. Much of the media discussion of the current recession/depression harkens back to the Great Depression and to America's economic past. This course examines North America's past from the perspective of economics. In designing the course, I had two objectives in mind. First, topics have been chosen to provide a perspective on the development of American economy from the Colonial period to the present. Second, this is a course in applied economics. To that end, topics have been chosen to illustrate how evidence and theory are combined to further our understanding of particular historical events. The economist, by his or her training, tends to become expert in the construction and manipulation of theory or of hypothesis. The historian tends to become expert on sources, evidence, and their
