SCORING

Recreational League Shooting Rule

The initial shot must be taken from outside of the hash marks if the player is facing the goal directly. If a player shoots the puck at an angle to the goal, the area in which that player can shoot moves gradually closer but may not be any closer than five feet at the direct side of the net (along the goal line).

The initial shot must strike the "shooter's toe" in order to be eligible for a rebound shot. The rebound shot must be taken from outside the crease area. Following the rebound shot the next shot must be taken within the same parameters as the first shot.

As a rule of thumb, the rebound shot should be fairly immediate. This will be left to the discretion of the Officials.

A player may not score more than three goals in one single game. Any goal after the third goal by the same individual will not be counted.
